THE FIRE FIEND.

Terrible Fire in Charlotte Yester day-Sixteen Hundred Bales of Cotton and Many Buildings Burned-Loss Nearly Half a Million of Dollars.

From various dispatches received in this city yesterday, out principally by the authorities of the Carolina Centra Railway, to whom we are indebted for the use of them, we regret to learn that a fearful fire broke out in the city of Charlotte yesterday, about 1 o'clock, entailing very heavy losses on many parties as well as on a number of corporations. The fire is reported to have caught

press at the depot of the Charlotte, Columbia & Augusta and Richmond & Danville (N. C. R. R.), both of which, with the exception of the transfer house, together with the ticket offices, were totally consumed. There was a large lot of cotton variously estimated at from 1,600 to 3,000 bales, which was also burned the platform at that point of the Carolina Central Railway was also, at one time, in great danger, but was saved by great exertions. The fire companies were early on the ground, and as soon as they could obtain water, organized a manful resistance to the deyouring element. But the winds were high and the flames ficrce, and it was only by prodigous efforts that the property of the C. C. R. W. Co., was saved from destruction. There was not a very large quantity of merchadise in the two burned depots and the loss there was principally in cotton and guano.

From the depots the flames spread with resistiess fury to the shanties which surrounded them and which were soon destroyed, and they then made a leap and began to envelope the dwelling houses of citizens in that locality. In this respect we fear that Col. E. D. For the J arnal The Election in Pender. ROCKY POINT, 5 o'clock p, m., !

April 15th, 1875. Eidtors Journal: -The election is progressing quietly here. At this writting the result is uncertain, but the probability is that the Radicals have elected their ticket, including their secret nomination for a county ite-South Washington. The correspondence published in your paper o-day from Point Caswell over the signature of "W. T. B," is full of truth and wisdom and explains many of the causes which have produced that defeat of a party which has been foreshadowed for a week, and ever since the evidence has been so plain that illegal Radical voting was to be the means of defeating us in this election. Hundreds of Radicals have no doubt registered who were not qualified, and our citizens have been worried by their own observatious and even told by high Radical authority in Wilmington (not approving of this overruning of Pender by Radicals from other counties) that some two or three hundred Radical voters had disappeared from Wilmington recently and come over into Pender. This importation and colinization of voters in the new county, in conjunction with lamentable disaffection and neglect of duty in our own ranks, bear ing upon the county offices and county s to has doubtless enabled the Radi cal party to succeed this time in the

new county. The negroes in this township, under the lash of their political master, Jas. Heaton, who has beer here all day, voted mostly for South Washingto for the county site. Certain Radical leaders, in order to spite certain citizens of Rocky Point who have been most active in securing the new county, hoping also to prejudice the cit; zens of Pender against it, by putting the site at an inconvenient place on the railroad, and thus get Pender back into New Hanover, have laid a deep scheme to put the site at South Wasinington. The radical King of "Excelsior," who made a faint for Rocky Point and even voted, (the first time in this township) for it in order the better to cover his delusive work, has no doubt, in his hatred of Pender, been one of theee schemers in this radical scheme for running the new county. -He has boasted, with others, that such a location for the county site would be | pr se. the entering wedge for destroying the

As there had been no fire used near the mill on that day no doubt exists in the mind of any body as to its being burned by an intendiary. The property was not covered by insurance and Mr. Harper's loss is about \$4,000.

The Turboro Southerner says: There are confined in the county jail seven persons for trial at the approaching term of the Superior Court who have been committed for capital offences, viz: N. P. Overton, Noah Taylor, John Williams, Wm. Freemen, Elias Powell, Hilliard Whitsker, for murder, Allen Lyons, for rape. All are except the first mentioned who Gamberg, the prosecutor G. Z. French is alleged to have murdered young and the defendant a negro man charged | Grimes a few months ago. It is highly probable that a majority of them will be convicted.

The Salem Press says: Last week we briefly noticed the raid by U. S. revenue officers on illicit distillers in Yadkin county. We learn since that the party operated near Yadkinville enught several persons, destroyed thirteen stills, emptying the whisky, beer, &c., all in one day. Information had been given of certain illicit distil-1 rs, where upon official instruction was given to seize, confiscate and destroy stills, fixtures and whisky found in possession of certain parties. Another account says about 35 stills, some in use and some u:t, were cut up, de stroying about \$10,000 worth of

property. The Wilson Advance says: The money realized by the Wilson Gut Concert and which the Superintendent refused to accept, and which has caused so much agitation in the State. has been invested for the benefit of the orphans. Over three hundred dollars in provisions have been already shipped to Oxford, and the receipt acknowledged in the last Children's Friend is as follows: Contributed by friends of orphans, through Todd Schenck Co., Baltimore, 5 barrels flour, 519 pounds sugar, 181 pounds coffee, 44 gallons molasses, 553 pounds hams. 302 pounds breakfast strips, 225 ounds lard. It is right that the orphans should have the benefit of this contribution. It was intended for them and they have received part and will get the balance in due time. We think the fact too should be published in justice to the committee. We clip the following from the
